Center valve oil

# NEOVAC MC-600

## Description

NEOVAC MC-600 is the high grade center valve oil which is produced by the fractional distillation of highly refined mineral base oil in MORESCO's unique molecular distiller. NEOVAC MC-600 is center valve oil being used for lump industry.

## Characteristics

### ☆Low vapor pressure

Pumps being enable to obtain the lowest ultimate pressure that rotary pump can attain.

### ☆Excellent oxidation stability

Can expect long term fluid service, minimizes maintenance job due to the formation of sludge.

## General property

		MC-600
Viscosity	40°C·mm <sup>2</sup> /s	256.2
Color	ASTM	L4.0
Flash point	°C	298
Pour point	°C	-12.5
Vapor pressure	50°C, Pa	Below $1.3 \times 10^{-4}$
	50 , Torr	Below $1.0 \times 10^{-6}$

## ◆How to use

NEOVAC MC-600 is unable to be blended with water or other fluids. Please check correct viscosity grade of the using pump.

## ◆Storage

Please refer to Material Safety Data Sheet (M.S.D.S.)

## Package

1 liter / tin      4 liter / tin      18 liters / can      20 liters / can      200 liters / drum
